

GO EAST SUMMER SCHOOL 2021

Changing Energy Landscape: the EU-Russia Energy Relations

16-30, August, 2021

St. Petersburg, Russia

The Summer School aims at proactive Bachelors' and Masters' students having interest in the field of Energy Economics and studying Economics, Business, World Economy, Political Science, etc.

The Summer School is supported by DAAD and bears a status of CBSS Summer University 2021. Among partners of the Summer School, there are Gazprom export, 50Hertz Transmission GmbH, Uniper.

The programme focuses on world energy trends, latest developments in the Russian energy sector and European energy market, EU-Russia energy relations, sanctions issue, oil price dynamics and the consequences for energy sector, decarbonization, sustainable development and other topics.

Before the start of the programme, students will receive three Energy Cases. The cases will introduce three economic, political and ecological perspectives on the development of the energy sector: International Gas Transmission Pipelines, LNG Terminals and LNG Bunkering. Students will be required to do three individual assignments, one for each case, prior the arrival. On the first day of the programme, students will be divided into teams. Each team will face a task of completing their group assignment before the end of the programme. On the last day of the programme, all teams will present their assignments to the Jury and other teams.

The workload of the Summer School is 7 ECTS.

Participation fee is 1000€ (800€ for applicants from UNECON partner universities). Students of German universities may compete for DAAD scholarship of 650 Euro. The fee includes residence costs, lectures and excursions. Catering is not included.

To apply for participation, you should send your CV, motivation and reference letters to summerschool@unecon.ru until 1 June 2021. The organization committee selects students according to their motivation and reference letters. The relevance of home university study programme/research work will be taken into consideration.

Changing Energy Landscape: the EU-Russia Energy Relations

GO EAST SUMMER SCHOOL 2021

The EU-Russia Energy Relations

16-30 AUGUST 2021

The program is aimed to generate a discussion on reasons and consequences of oil price dynamics and its implications for other fossil fuels as well as its relation with international decarbonization efforts. The program will focus on the latest developments in the Russian energy sector, as a central piece in the European energy market, and the implications of sanctions for its further development.

VENUE: St. Petersburg State University of Economics

DURATION: 2 weeks

WORKLOAD: 7 ECTS

LANGUAGE: English

PARTICIPATION FEE: 1000 €
800 € for partner universities

The fee includes resident costs, lectures and excursions. Catering is not included.

8 DAAD scholarships are available

THE COURSE IS TAILORED TO GIVE COMPETENCES FOR:

- current world energy trends
- understanding of the link between theory, institutional framework and practical problems with respect to sustainable approach in the energy cluster;
- core issues of Russia-EU energy relations.

APPLICATION DEADLINE: 1 June 2021

You can apply for participation by sending CV, motivation and reference letters to SUMMERSCHOOL@UNECON.RU

** In case of impossibility to hold the Summer School on site because of COVID-19 pandemic restrictions, the Summer School will be held online on 16-30 August. In this case, terms of online participation will be determined later.*
